

WILDLIFE ART CONTEST

Which animal should I choose for the contest?

- The *PA Wildlife Journal* will focus on birds & mammals **native to Pennsylvania.**
 - You must choose from the list on our website.
 - Only native birds & mammals will be accepted.
- The list of animals will change as artwork is submitted,
So check back from time to time.
 - **Multiple entries will be accepted,**
but each entry must be a different animal.
- If we get an ample supply of artwork depicting one species—like the Black Bear - we will remove the black bear from our list.
You may then choose from the remaining animals listed.
- For example, if you have already entered a Flying Squirrel and check the list later to see that we are still looking for artwork on the Star-nosed Mole, you may enter the contest again.
