

Ag Education and Outreach Fact Sheet 5/11/17

York County Conservation District (YCCD): (717) 840-7430

YCCD Agricultural Staff (717) 755-2966 Mark Flaharty x106 Michele Grove x107
 Joe Rebert x134 Brita Runkle x133

Natural Resources Conservation Service (NRCS) York Service Center (717) 755-2966 x3

For conservation planning assistance a COOPERATOR FORM will need to be filled out and mailed to the Conservation District. This can be found on the YCCD website at www.yorkccd.org click on the 'agriculture' tab from the homepage, select 'cooperator form to request district assistance'.

The Conservation District mailing address is 118 Pleasant Acres Road, York, PA 17402

If you are interested in using a private consultant to develop your Ag E&S/conservation plan or your manure management/nutrient management plan, the following websites can be accessed for names and contact information.

For certified conservation planners access the USDA-NRCS website at <http://techreg.sc.egov.usda.gov>. Then click through to find list of planners for our area.

For manure management or nutrient management planning access the PA Department of Agriculture website at <http://www.paplants.pa.gov>.

Then click on Nutrient Management then NM Certified Specialist search.

Visit the Department of Environmental Protection (DEP) website at www.dep.pa.gov for information on:

- The Clean Streams Law
 - ⇒ Chapter 102 - Erosion and Sediment Control
 - ⇒ Chapter 91 - Manure Management Regulations
- General Permits for stream and wetland impacts
- Concentrated Animal Feeding Operations (CAFO)
- Manure Management Manual: Go to: "DEP Programs A to Z", select "Manure Management", click on the words "Manure Management" (by picture of manure spreader), Open "DEP's Manure Management Manual"

Visit the Pennsylvania Department of Agriculture (PDA) website at www.agriculture.pa.gov for information on:

- Act 38, Pennsylvania state nutrient management law
- Resource Enhancement and Protection (REAP) program

Visit the Penn State Cooperative Extension website at <http://extension.psu.edu/york> for educational materials and upcoming events & trainings related to cover crops, no-till, nutrient management as well as spreader calibration.
