
2022 Aquatics Resources for 3rd & 4th Grades

Rivers and Streams

Testing Resources:

1. Rivers and Streams
2. Rivers Run Through Pennsylvania - PLAY
3. Dive Into Stream Ecology – PLAY
4. The Perch Family (pages 1-3 only) - PLAY
5. How a Fish Works
6. Food Web of the Fast Stream

Focus:

- Know key features of Rivers and Streams
- Understand a simple aquatic food web
- Identify Pennsylvania's watersheds
- Properly label the parts of a fish
- Familiarize yourself with all study resources. If it is in the study resources, expect to be asked a question about it.
- Does spelling count? It might be the only way to break a tie. And is it fair to give credit to the team that spells "Phosphorus" correctly and the team that spells it "Fosforus?" Tell your students to do their best with spelling.

Sample Questions:

Pennsylvania's largest watershed is

- a. The Delaware Watershed
- b. The Susquehanna Watershed**
- c. The Potomac Watershed

Which species might be found at the top of an aquatic food chain?

- a. Kingfisher**
- b. Caddis fly larva
